CONSUMER/FAMILY SCIENCES DIVISION

SECTION Q306 - Fabrics & Fashions (Design and Construction)

- The Skill Mastery sheet <http://4h.okstate.edu/literature-links/lit-online/family-consumer-science/fabric/skill-mastery-sheets> is an education tool to guide project construction for fair exhibits. The projects have been carefully selected and directed for members to investigate and learn specific skills and information. The end product is being evaluated on the skills "you learned," as identified on the age appropriate skill sheet. It is encouraged that the sheet be submitted with the exhibit with the exception of the story board, portfolio and creative components. The intent is that the sheet serves as a "personal reflection" which shows the judge how much you really learned. Why? Because in 4-H, reflection and application are just as important as the end product. Sheets will not be displayed and will be returned. Not because the sheet is not important, but to simplify displaying.
- Use the skill sheet as a planning tool. Ask yourself, "What skills are necessary to learn and appropriate to apply to my project's design and construction?" It is important that each 4-H member take responsibility for the life skill of "learning to learn." This may require members, leaders and educators to look up terms and learn techniques as part of the educational process.
- **Projects being exhibited for competition** will be evaluated on the 4-H members "mastery" of skill(s) and subject matter. The 4-H Fashion and Fabrics Member's & Leader's Guides provide basic information that members need to learn (master) and demonstrate in their project work. Members are encouraged to seek out other valid resources which teach proper technique and knowledge in the areas of design and construction.
- *General Skills to be mastered in project/product in ADC, IDC and HTDC:*
 - **Structural Design:** Construction technique, size, form, color and texture suited to the materials and product end use.
 - **Elements of Design:** The finished product illustrates the member is learning or "mastering" the basic elements of design - line, shape or form, texture, color, and space.

PERSONAL DEVELOPMENT AND LEADERSHIP DIVISION

SECTION Q327

HOBBIES AND COLLECTABLES / LEISURE EDUCATION

The purpose of this project area is for members to learn about and document personal, 4-H, or subject related history using appropriate conservation, preservation, and/or restoration methods. Think of this project like our own "Antique Road Show" 4-H project area.

- ✓ Each exhibit will require research, and reporting to authenticate the item being exhibited and to justify the method chosen to preserve/display the item
- ✓ 4-H Curriculum has been developed to introduce and educate 4-H members and volunteers in the preservation and conservation of artifacts. The criteria/standards used to evaluate the 4-H member exhibit will reflect the member's mastery of conservation and/or preservation techniques and their ability to document memorabilia/history. This is accomplished with the use of the updated (revised 2014) **Authentication Card (4H·HLTH·413)**
- ✓ The Authentication Card must be legible and securely attached to the front of **ALL** exhibits. **Exhibits will be disqualified if they do not have a card.**

- ✓ The County and State Fair will do their best to insure items are respectfully handled, but they do not assume responsibility for any item damaged or lost while on exhibit. Please consider this when entering your "collectibles".
- ✓ **No loose collections/sets will be accepted. A collection must be SECURELY attached/contained to make one entry.** This means each item within the collection is enclosed in a frame, notebook, attached to a tray, or firmly attached to a rigid display board (foam core, mat board, corrugated plastic, etc.) in a manner where items cannot be separated from the collection.
- ✓ Curriculum currently available or under development – **4H·HLTH·403** Preserving Vintage Clothing and Textile Products – Part 1; **4H·HLTH·404** Preserving Vintage Clothing and Textile Products – Part 2; **4H·HLTH·405** Storage and Display of Heirloom Textiles in the Home; **4H·HLTH·406** Preserving Photographs, Books and Paper Documents; **4H·HLTH·407** Preserving Metal, Wood and Plastic Collectibles (not available); **4H·HLTH·408** Preserving Memorabilia; **4H·HLTH·409** History Mysteries Part 1 – Recording and retelling the history of 4-H and its people through stories; **4H·HLTH·410** History Mysteries Part 2 – Writing the Story – your treasures – from Clues; **4H·HLTH·411** Documenting and Cataloging Collectibles (not available); **4H·HLTH·412** Displaying Collections and Collectibles (not available); **4H·PDL·111** Personal Development – Documenting our Heritage; and **4H·HLTH·413** Authentication Card (Revised 2014).

Historic Preservation, Restoration and Replication – of Photography

08. Photography

The purpose is to determine the member's application of skills and knowledge gained in the area of restoration and preservation of antique/collectable photographs. Project work will be judged on research, knowledge and appropriate method of preservation restoration or replication.

Authentication Card (Revised 2014) - Be sure to include when possible: documentation of the people in the picture, location, where it originated, photographer and why this particular deserved the historical "consideration" as a collectable.

Choose one of the following methods and justify your choice as it relates to preservation on the authentication card.

Original photographs electronically copied, repaired/enhanced when necessary or printed from the original negative. The photo should be appropriately displayed for preservation purposes. Be sure to document why this particular picture deserved the historical "consideration".

Follow preservation guidelines as noted in **4H·HLTH·406**. Securely hinge original photo enclosed in a protective sleeve (so it can be lifted to view the back of the photograph). If the desire is to preserve the historic integrity of the photograph and frame, appropriate conservation methods should be researched, applied and documented as part of the exhibit.

Collectable(s)

The purpose is to determine the member's application of skills and knowledge gained in the area of restoration and preservation of hobbies and collectables. Project work will be judged on research, knowledge and appropriate method of preservation restoration or replication.

Any item or set of items must be display in a manner that provides protection, is secure and can be viewed.

09. Historic Replica – When an item cannot be restored, preserved, or attained, a collector may have to replicate the item. When replicating an item it is important to research and duplicate the construction methods and materials as close as possible. Attach a picture/photograph of the original item.
10. Heirloom Restoration or Preservation – Exhibit an antique or collectable which has been restored or preserved using appropriate methods. Attach a before picture of the item.
